

Usage Guidelines

This folder contains the official selection of visuals approved for use in your marketing materials (website, product catalogues, newsletters, social media, etc.).

All images in this folder are cleared for use, with the proper model release permissions in place.

Please stick to this selection when using Jameo visuals in your communications.

Using images outside of this folder is not allowed and may lead to legal consequences if image rights are violated.

If you'd like to use a visual that's not included here, just reach out. We'll be happy to confirm if it's approved or suggest an alternative.

Thanks for your collaboration!
